

### **MedaTech Information Technology Ltd.**

MedaTech started as a two men operation in 1993, our main goal upon partnering with Eshbel at the time was to be focused and serve happy customers. In Eshbel and Priority we have found the support and technology that allowed us to expand our business rapidly over the years.

Today MedaTech serves over seven hundred customers in a variety of verticals. In order to support unique requirements of niche businesses MedaTech has developed special add-on modules that enhance Priority's built-in functionality, expanding those third party modules and delivering better solutions to our customers has been our trademark over the years. Some of the verticals we are currently supporting include different types of Manufacturing (Plastics, Chemicals, Metal Processing, Hi Tech, Pharmaceutical, and Medical Devices etc.), Distribution, Customer Service, Project Management, Construction and other types of businesses.

In order to provide better level of service to our rapidly growing install base, MedaTech also functions as a Single Point of Contact organization. We provide best of breed third party solutions (BI, MES, Mobile, WEB Applications etc.) and we also cater for infrastructure and related technical support issues (System Admin, DBA etc.).

MedaTech has two offices in Israel and subsidiaries in the UK and the US. We are fully committed to maintain the outstanding level of service that has been a key factor in our continuous success. MedaTech is also constantly looking to grow in new territories and by offering new products and expanding it's offerings to the marketplace.

MedaTech is ISO9001 compliant since 2006.
